

CONNIE MACK KNOWS: Protecting Our Beaches Protects Our Economy

Florida's Gulf Coast has been blessed with wide, white-sand beaches, gentle breakers, rich fishing grounds and broad coves perfect for boating. It's these natural assets that attract tourists and fuel our economy.

But the health of the Gulf of Mexico is failing. Pollution, over-fishing, and habitat loss have pushed the Gulf to the brink. That's why Connie Mack has committed to enacting policies that will protect the Gulf, keep our oceans and environment healthy and our economy strong.

Connie Mack supports the ban against drilling for oil along Florida's fragile coast and pledges to champion efforts to protect the oceans, beaches and fisheries that are the keys to our prosperity and quality of life.

CONNIE MACK:
CONSERVING FLORIDA'S BEACHES,
COASTS AND QUALITY OF LIFE.
